

DP & MM Shine As The Race For The Podium Tightens

SS Sits With a 2 Game Cushion With 1 Week Left To Go

Effective date: 2025-12-30

As the dust settles from a chaotic Christmas week, there are two members that unwrapped exactly what they wanted. DP and MM were the giddy tandem as they each knocked down 11 victories and gained 3 games on the leader, SS. MM feels great after this feat, but DP feels better as he's nearly climbed out of a 12 game hole and would love nothing more than to put a "happily ever after" at the end of this incredible run that he's been on. Still a lot of work to do, but DP has gained the respect of his peers nonetheless. As he has entered the chat at the top of the leaderboard, the others continue their game of musical chairs. Even with SS' subpar week by his standards, he was able to pick up a GOO as KS struggled with a holiday hangover and now finds himself further down Penthouse Drive. CM, LF, NF & BS all knock down 9 wins and pull themselves a game up as they all exchange elbows and glares for spots on the podium. It's a race to the finish line and the way the season has gone, SS may want to keep his eye on the driveway as he rings in the New Year in his Penthouse recliner.

PM went with old man Rivers and IND and it didn't pan out, but you're still a good looking chap so hold your head high!

So here we are. A long grueling season has given way to its final week. One slate of games stands between one member and hoisting the perpetual trophy. *barring any ties. Many storylines have surfaced over the course of the season...Who will steal the final headline? Enjoy the chaos and Happy New Year!

Your President & Champ,

LF
